

Script-C

Bamboo Pens

Scripting Sustainable Development

Script-C Regular

Script-C Bamboo Pens are handcrafted by members of women's self-help groups in Wayanad district, Kerala State, South India.

Script-C Stick Pen

Script-C Premium

Uravu, a non-profit trust engaged in the promotion of bamboo craft, provides training in making the pen, supplies raw materials and buys back the products.

Script-C pens are made of reed bamboo (*Ochlandra scriptoria*) and coconut shells.

Uravu harvests the reeds from streamside farm plots and replenishes the stock by promoting bamboo cultivation.

Bamboo enriches the ecosystem and conserves water. Its judicious utilization sustains rural livelihoods.
