

Technical Specifications :

Power consumptions	280-620watts
Capacity	12,20,25,36,50 liters
Extraction(30°C,90%RH)	12-50litres/day
Humidity setting	Available
Auto Humidity setting	Available
Running Temperature	5-35°C
Compressor	Reciprocating
Coolant	R-134a/R22
Empty weight	12-21kg
Continuous drainage	Available
Washable Filter Pad	Available
Recommended coverage	150-1000 sq. ft.
Tank capacity	2-6.5 liters
Air flow	150-220m ³ /hr
Indoor sound Level	<50DBA
Volts/Hertz/Phase	220-240/50/1
