

Castable Refractories / Precast Shapes for **IRON & STEEL INDUSTRY**

Iron & Steel Industry consumes 70% of the total refractories manufactured in the universe and therefore Iron & Steel is considered as the backbone of refractories Industry. Sharada Ceramics, with multi location facilities, focuses on Iron & steel refractories consumables and reliable products for Original equipment lining as well.

The manufacturing of Castables and Refractory shapes are carried out with our manufacturing facilities located at Chennai, Kakkalur, Thiruvavarur and Jabalpur.

SERVICES

- **Sharada Ceramics** has a team of engineers to work closely with the end users and recommend the right product for given application. The critical "W & H" namely WHERE and HOW are effectively analyzed and understood before the supplies are effected.
- Our engineers maintain a database of all vessels in the user industry and monitor the performance measures to ensure that they comply with industry standards.
- Sharada Ceramics has Branch / Service Network at the following places to meet the customer needs
- Chennai, Bangalore, Hyderabad, Coimbatore, Jabalpur, Ahmedabad, Raipur, Ranchi.

Our Organization has the following Milestones

- ISO 9001(2000) QMS certified for our works at Chennai.
- MECON /EIL Registration for our products
- **Jindal Vijayanagar Steel Limited** is our top Customer with Annual orders for 2003-04 &2004-05. Preferred vendor status is given
- **Steel Authority of India Limited BSP, VISL, Bhadravati & VSP** orders for our Castables and Shapes.
- Orders from **SISCOL, LANCO, SUMANGALA, SESA, Jayaswal Neco and Lloyd Steel.**

S.No.	Products	End Use
1	90% / 50% Alumina Castables	For Ladle Patching (hot Metal & Lf)
2	90% Alumina Premium Castables	Well Block Fixing
3	Low Cement Castables Lc 70	Ladle Safety And Tundish Back Up
4	Precast Lf / Hmds / Argon Lances	Hm Desulphurisation, Convertor Process
5	Dart Set With Slits/snorkel	Convertor
6	Ladle Well Mix (nozzle Filling Compound)	Ladle Opening
7	Trough Mass	Mini Blast Furnace Trough
8	Gel Bonded No Cement Castable	Runner/burner Blocks/burner Areas
9	Skimmer Pad	Blast Furnace Runner Area
10	Ceramic Fibre Castables	Coke Oven Doors
11	Ceramic Boards	Back Up Insulation In All Areas
12	Ceramic Paper	Sealing, Expansion Joints, Ladle Skin Layer
13	Abrasion Resistant Blocks For Reheat Furnace Hearth (chrome/alumina Based)	Hsm/reheating Furnace Walking Hearth Blocks
14	Customised Pre Cast Shapes	Eaf Electrode Holder/coke Oven Peep Holes/burner Blocks In All Areas

Sharada Ceramics have also acquired expertise to undertake Iron metal management namely, Hot metal ladle and Trough and runner management with an American company tie-up. Sharada Ceramics have also signed an agreement with RDCIS, SAIL for Flow control devices for Tundishes.
